

Western Downs Regional Council

GRANTS & FUNDING

Community Projects Program

Is your community organisation planning a project and in need of some funding to help out? The Community Projects Program may be able to assist.

Funding is available for the following types of projects:

-  Capital infrastructure.
Example: to build a shed to store the club's equipment in.
-  Upgrading of facilities (to meet standards, regulations, community expectations, meet changing community needs and/or increase facility usage).
Example: to install ceiling fans in the hall to allow greater use in summer.
-  Equipment purchases (excluding those solely for administration purposes).
Example: to purchase a mower so the committee can keep the grounds tidy.

Guidelines can be found on Council's website:

www.wdrc.qld.gov.au/grants-and-funding

The grants team is here to help.

Please contact us if you have any questions regarding Council's grant programs.
