The new water restrictions apply to all customers connected to a Western Downs Regional Council water supply. The new restrictions will open up the water supply system making it available for use at times that will better suit individuals own circumstances. However, higher water consumption will be reflected in your bill, so we do encourage people to continue to be water wise.

Variations to residential water restrictions are subject to approval by Council's Infrastructure Services General Manager. Customers may apply for a Water Restriction Variation by contacting Council's Customer Contact Centre on **1300 COUNCIL**.
